

Press Release

NHSF (UK) June Committees' Day 2018

National Hindu Students' Forum (UK) is holding June Committees' Day on Saturday 16th June at Nottingham Trent University. NHSF (UK) supports over three thousand students and works with over 40 universities across the UK, aiming to create a 'home away from home' in which students can connect, develop universal values and blossom into future leaders.

NHSF (UK)'s June Committees' Day is an opportunity for newly-elected committee members to learn about more about their role, develop skills for life and connect with others across the country. As they embark on their journey with NHSF (UK), students will acquire new skills and learn about the values of NHSF (UK) through a series of workshops, whilst creating new friendships throughout the day.

This year's theme is 'Connect. Collaborate. Create.' The day aims to encourage students to better understand NHSF (UK), connect with others across the country and pool their ideas. They will be guided by external mentors and NHSF (UK) alumni, and provided with a series of resources to equip them for the year ahead.
